Hi, I am an enthusiastic and self-motivated Data scientist with excellent knowledge and experience. I have already completed my MSc in Mathematics . As a Mathematician, I have a strong Mathematics background and use Predictive modelling, Data processing, and Data mining algorithms to solve challenging Business problems. Involved in the Python open source community and passionate about deep reinforcement learning.

Data science is my passion. I really enjoy playing with Data. So I think I can assist my best for any company as a Data Scientist and Algorithm Developer.
